

Who Can Make a Referral?

Referrals to the service can be made by parents, schools and other local agencies.

We ask that any children, parents and families are fully consulted before making a referral. We are also happy to have an initial discussion with families if that would help them to make a decision about taking part.

Support
Project

For children aged 5 to 8 and
their families

About Us:

Pilton Youth and Children's Project was formed in 1997 and is at the heart of the local community. We provide a range of open activities for young people aged 5 to 18, alongside targeted support.

We have a range of facilities in our centre, including an art room, sports hall, soft play room, drama/ dance studio and kitchen. This enables us to provide a range of activities, building relationships and giving young people and families opportunities to build new skills, confidence and resilience.

Our team have many year's experience of working with young people and families and we also provide volunteering and work opportunities for local people.

How We Can Help:

We recognise that to be truly effective in reaching outcomes for young children, that it is important to support the family as a whole.

We work with each child and their family in such a way that is tailored to their needs. We will work with them to develop a plan based on what they tell us is important.

This could be things like:

- offering emotional support to talk through worries and concerns

- practical support; for example help with money worries, healthy eating, promoting positive behaviour

- support for parents regarding their mental health and wellbeing

- helping families access additional supports; for example counselling, employment services

- supporting families to enjoy quality time together

Our Approach:

As with all of our work at PYCP, we will work with families with respect and empathy. We understand that everyone is different and will use a range of approaches, suited to needs and to working with young children. We will also support families to participate in our wider programme at PYCP.

We will regularly review the support together, seeing what progress has been made but also offer opportunities for families to give us feedback so that we can learn together.
